people's uses of
leisure activities
in Adlisberg
through the
seasonal cycle**

‘I come a lot in Dolder parc in winter to play ice hockey, but never in summer. I am used to take the cable car, it is a very convenient way to access this area.’

‘I live around, and I am used to come for a walk here everyday with my friend, no matter the season. As she takes her car to come here, we usually meet in the parking and then go on top of the hill, around the Adlisberg restaurant, where we sometimes stop for a coffee.’

‘We come sometimes to have small walks around here, as we live near by. Most of the time, we leave our car in the ice skating parking, walk a bit, and then go to eat or have a coffee in the Adlisberg restaurant.’

‘I bring my son to play mini golf during holidays. As long as the weather is dry enough, we come to play. It is very nice that the field is open throughout the whole year. I would prefer to come here with the car, but my son enjoys a lot taking the cable car. It became part of the whole activity now.’

‘During the winter season, we come with the class around four times to ice skate. And in the summer season, we also come here, either to use the swimming pool, or to go for walks with the children around the parc.’

‘During the winter season, we come with the class around four times to ice skate. And in the summer season, we also come here, either to use the swimming pool, or to go for walks with the children around the parc.’

‘I enjoy sitting on this bench to read a book. The pathway is less crowded than the others on the hill, it is very calm here. My presence is very much linked to the weather. As long as it doesn’t rain, I try to come in this area as much as possible, it is refreshing.’
